Foothill High School Student Arrested After Making Threats via Social Media

On September 29, 2016, Foothill High School Staff received information that a student made threats via social media to harm a fellow student. Working closely with school staff, Pleasanton Police Department School Resource Officers identified the suspect who was found at a location away from the school. At no time did the suspect reference harming anyone other than the specific student. The suspect did not mention the use of a weapon and there were no weapons located. There was no evidence to indicate any threat to the campus, staff members, or the general student population. The threats appear to be a result of specific interactions between the suspect and victim. The suspect was arrested and booked into juvenile Hall. The Pleasanton Police Department and the Pleasanton Unified School District are proud of our close partnership in providing a safe environment on our school campuses.

The suspect's name and age will not be disclosed, and the specific nature and threats will not be divulged so as to preserve the integrity of the investigation.
