## THE POSITION

*(This is a temporary, part-time position, 24-32 hours per week)*

This position requires the ability to assist the GIS Coordinator and GIS Technicians in performing a variety GIS maintenance activities using ESRI suite of software, and to assist I.T. staff with providing computer hardware, software and technical support to various divisions within the City. The position requires a self-motivated individual who learns quickly, who is able to assume increasing responsibility, and who is willing to perform routine tasks in order to gain a working knowledge of the City's G.I.S and I.T. systems.

Typical duties may include:

- ❖ Preparing, Creating, Editing, or Printing GIS maps based on existing datasets, such as street center lines, curbs, easements, assessor parcels, utilities, orthophotography, and fire hydrants, utilizing ArcGIS 9x, or other ancillary GIS software on a windows OS.
- ❖ Creating, modifying, and maintaining of GIS spatial datasets, databases, and associated metadata, either manually or through geoprocessing tools.
- ❖ Performing PC replacements, basic desktop technical support.

## THE IDEAL CANDIDATE

The “ideal” candidate will have knowledge or experience with:

- ❖ Geographic information systems or computer-aided drafting
- ❖ ArcGIS Desktop 9.3.1, 10.0, or 10.1. 3D Analyst, Network Analyst, or Spatial Analyst and the extensions, and some experience with their use.
- ❖ Principles of cartography, engineering, surveying, drafting, GPS, or computer graphic design

The “Ideal” candidate will have Skill to:

- ❖ Create maps and exhibits as needed by City departments, partners, and the public.
- ❖ Collect, post-process/correct, and convert to GIS- physical infrastructure features of the City using GPS.
- ❖ Compile spatial data pertaining to the City datasets and related mappable information.
- ❖ Follow procedures carefully and with attention to detail and possess strong oral and written communication skills.

- ❖ Utilize MS Office Products including Word, Excel, PowerPoint, Outlook, and Access.
- ❖ Organize a production schedule, be able to work independently and meet schedules.
- ❖ Work alternate shifts, unusual hours, and occasionally outdoors.

## EDUCATION AND EXPERIENCE

- ❖ Any combination of college course work or experience equal to two years in Geography, Engineering or Geographic Information Systems

## REQUIREMENTS:

- ❖ California Driver's License with a good driving record
- ❖ Willing to commit to the position for one year.
