Batched Wireless Broadband Facilities (AB 965) Permit Application Cover Page

INSTRUCTIONS:

Applicants intending to submit batched wireless broadband facilities applications pursuant to California Government Code 65964.3 (AB 965) must submit this supplemental Batched Wireless Broadband Facilities (AB 965) Permit Application Cover Page together with a Wireless Facility Permit Application Cover Page, the applicable Permit Application, and all information and materials required by the applicable Permit Application. City staff may deem an application incomplete if the applicant fails to include any required information or materials. This cover page does not apply to eligible facilities request applications made pursuant to a Section 6409(a).

Submit all application forms, documents, and information to the Department's online permitting portal only during the Department's "Permit Center Hours" as published on the Department's website. The Department's Permit Center Hours exclude City holidays or other days that the City is closed. Any applications submitted, or resubmitted as the case may be, after such Permit Center Hours will be deemed submitted, or resubmitted, and received by the Department at the start of "Permit Center Hours" on the next scheduled working day. Any application received in a manner not authorized by this policy or alternatives established by the Director, whether delivered in-person, by mail, electronically or through any other means, will not be considered duly filed whether the City retains the submitted materials or not.

ADDITIONAL REQUIREMENTS AND INFORMATION:

If the population of the City of Pleasanton exceeds 50,000, then a single AB 965 batched application may contain up to fifty (50) individual AB 965-qualified project sites. If the population of the City of Pleasanton is fewer than 50,000, then a single AB 965 batched application may only contain up to twenty five (25) individual AB 965-qualified project sites.

Number of Project Sites in the Batch: _____

For each AB 965 batched wireless broadband facilities application submittal, the photo simulations required for each site application must also be combined into one (1) master PDF document with each location identified on each of the photo simulations and submitted with all of the batched applications. Additionally, each AB 965 batched wireless broadband facilities application submittal must contain a separate exhibit (labeled "Batch Locations") that contains for each project site: (a) address; (b) latitude and longitude (WGS 84); (c) zoning designation; (d) general plan designation; (e) pole identification number, if applicable; (f) pole type, if applicable; and (g) Applicant's site number/name. Each project site within an AB 965 batch must individually meet all the requirements for a complete application that includes, without limitation, the payment of individual wireless application fees for each project site in the batch.
